

Branding and Packaging

Project:

Using your Frankenfont letter, and the ideas you had for your lamp on Tuesday, design a brand and logo for your lamp.

Instructions:

Sketch out ideas for what your lamp's purpose would be (who would buy it, what settings would it be used in, etc.). Experiment with how your Frankenfont explorations could be altered to make a logo.

Like in the Frankenfont project, make a clean version of your logo.

You will be given a cardboard box to package your lamp in. Think about how the packaging can reflect the branding and logo of your lamp.

Deliverable(s):

A two dimensional logo and the designed packaging for your lamp.
